

Funded PhD Studentships in Chemical Engineering at PIEAS under NRPB Funding From Higher Education Commission (HEC)

| | |
|-----------------------------------|--|
| Number of studentships | Up to two funded PhD positions are available |
| Research areas | Experimental Chemical Reactor Design and Reaction Engineering / Energy and Environment / Assessment, Synthesis and Characterization of Particles |
| Qualification | MS Chemical/Process Engineering or related fields |
| Monthly stipend | Rs. 39,000/- (approx.) |
| Tuition fee | Position of Lab engineer/Teaching assistantship will be offered to cover tuition fee |
| Duration of studentship | 36 months |
| Admission requirements | 1. PIEAS Admission Test (with CGPA of at least 3.0/4.0 in MS degree) 2. Interview |
| Tentative start date | Summer (July) / Fall (September) 2023 |
| Subject Test Date at PIEAS | 3 April 2023 |

Employees of civil/govt organizations are required apply after seeking necessary approvals. The selected candidate will have to sign a bond for entire duration of the project. Details of online admission process can be found at

atta@pieas.edu.pk

Notes:

1. Test will consist of different subjects such as Fluid Mechanics, Heat Transfer, Thermodynamics and Mass Transfer from popular textbooks
2. Those who qualify the written test will be contacted for interviews
