New discoveries in the area of materials science have led to exciting breakthroughs. Current era is witnessing the translation of scientific properties and principles to applied technologies. *NOOR 2nd Int'l Symposium on 'Applied Materials and Nanodevices'* covers all aspects of materials sciences for their application, in novel electronic, optical, mechanical, and energy devices, as well as medicine, the environment and the impact on society.

Participation

Doctoral students, MS/MPhil students, faculty members, scientist and engineers are highly encouraged to attend. Registration fee for faculty is Rs. 1000 and for students Rs. 500. The travel expenses should be requested by the prospective participants' from their parent institutions. Boarding/ lodging will be provided to the selected outstation participants.
